

QUALITY POLICY

At Leighs Construction, we are committed to providing a high level of quality service to our clients. We work collaboratively with our clients, consultants, and project stakeholders to ensure the delivery process provides an end-to-end solution. We will implement a Quality Management System that is embedded in our operational process, ensuring that the products and services we deliver meet all our contractual and regulatory requirements.

Leighs Construction shall achieve our Quality Objectives as set out below:

- Implement and maintain a Quality Management System that conforms with ISO 9001: 2015 requirements.
- Adopt the “Do It Right the First Time, and Every Time” philosophy.
- Proactively identify, assess, and manage business and operational risks.
- Ensure continued satisfaction of our clients.
- Comply with all applicable laws, regulations, and industrial standards.
- Enhance the quality of our construction work by adopting forward thinking technologies.
- Build long term and mutual beneficial relationships with our partners.
- Create a working environment that encourages excellent performance, teamwork, and innovation.
- Clearly communicate to staff our expectations for Quality Management.
- Provide training to our employees to enhance our delivered services.

As Leighs employees, we are all responsible for implementing our quality management system in all our activities, and to contribute to the continual improvement of our organisation.

Gary Walker
Chief Executive Officer
